EDUCATION

UNIVERSITY COLLEGE OF SCIENCE

2025 | CGPA: 8.0

Master of Computer Applications

LANGUAGE

English

Hindi

Telugu

SUMMARY

Results-driven MCA graduate with hands-on experience at Amazon and internship experience in full-stack development. Proficient in Java, Python, and SQL with strong expertise in building database-driven web applications using Servlets and JSP. Passionate about developing scalable, efficient, and high-quality software solutions.

EXPERIENCE

ML DATA OPERATIONS ASSOCIATE

Amazon

July 2025 – January 2026

- Processed and reviewed large-scale datasets to support machine learning model training.
- Performed data annotation and quality checks to ensure accuracy and consistency.
- Identified data inconsistencies and escalated issues as per defined workflows.
- Followed standard operating procedures (SOPs) to maintain data integrity and compliance.
- Collaborated with team members to meet daily productivity and quality targets.

JAVA DEVELOPER INTERN

CodSoft

Project: Digital Campus Magazine– Full Stack Web Application

- Developed backend using Java, Servlets, JSP, JDBC.
- Designed and managed relational database schema in MySQL.
- Implemented SQL-based CRUD operations and application logic.
- Built responsive frontend using HTML, CSS, JavaScript, Bootstrap.
- Implemented user authentication and role-based access control.
- Deployed the application on Apache Tomcat Server.
